ORDER

71/134/80-PHD

Scheme for payment of Stipend to Doctors practising in the Rural Areas

Objectives

This scheme is formulated to attract the interest of the qualified medical practitioners in medicine

to render their expertised services to the rural population.

At present 73.56% of the population of this territory is scattered in our rural areas, while only 26.44% of the population is living in Urban areas.

The qualified doctors are not readily forthcoming to open their dispensaries in the villages, as in most of the cases, the practice is non-remunerative. As per the survey conducted in this Union territory there were 828 allopathic doctors as on 1-10-1978 out of which about 50% are in Government service, and out of the remaining 50% only half are now practising in the rural or semi-rural areas.

Out of the total 409 inhabited revenue villages, only 43 villages have two or more qualified doctors while 54 villages have only one doctor, and 312 villages are left without a single doctor, hence the urgency of this scheme to provide positive health to each and every individual of the rural area, by providing incentives to doctors who are keen to settle their private practice in the villages to serve the needy patients.

1. *Short title and commencement.*—a) This scheme may be called "The Goa, Daman and Diu Rural Health Scheme 1981— incentive for private practitioners".
